Mr. Nagarajan Babu

Electrical Burn Treatment

in

Sri Devi Hospital

Chennai, India

using

Kollagen™ Products

HUMAN BIOSCIENCES

- Mr. Nagarajan was severely burned in an explosion caused by a faulty electrical transformer on 10/20 and was immediately taken to Sri Devi Hospital in Chennai, India.

- Mr. Nagarajan's torso and entire left arm was burned.

- Due to the severity of the burns, the head of Plastic Surgery and Skin Reconstruction decided to apply two SkinTemp® II dressings. The first dressing was applied on 10/22 and the second dressing was applied on 10/24.

- A few days after the second dressing, the burn showed significant improvement. No more dressings were required.

- Within 90 days of the first dressing, the burn was entirely healed without any scarring, hypertrophic or otherwise.
